I think I might be interested in hearing Deftones, since on paper they seem like something I might like.

They were rather big in the 90's, I believe. Even played on the radio. You don't really hear metal on the radio anymore. Meaning I probably partly know them from when I was like, 1 to 6.....But I think I know that particular song from a game, not sure. They are from the city I was born in, Sacramento.

Just looked it up, and nothing indicates it is from a game. Maybe I just know it from back then, somehow, or I just heard it more recently. Still haven't heard it in years.

Nothing at the moment, really.

Youth Lagoon - Daisypobia

I've really, really enjoyed this album. Only listened to it once and it's already an AOTY contender for me. Fantastic.

I would look that up, but I have so much to go through as is, I really don't need more added ☐
