I am listening to Piano Phase by Steve Reich.

People who don't just get bored and fall asleep to ambient music, for example?

Not that falling to sleep to ambient music is technically a bad thing.

I quite love ambient music if it is done right. A LOT of ambient music is boring as hell, but a lot of it is great, too. And when I say ambient I mean drone, ambient, ambient electronic, ambient post-rock (Yes, ambient rock exists), minimalistic, and so on.

[Maserati-This Is A Sight We Had From The High Mountain](#)

Opening by Philip Glass for example.

Listening to Different Trains by Steve Reich.

That song is addictive. The first I time I came across it I thought "well...this is different..." but I've kept coming back to it because it gives such good feels.
