Oh yes, you called me to talk about you? What do you think I am going to say, Reichskommissar. You turn yourself, your people, and your land into an inhabitable wasteland that I would not touch with a 30-km pole. And trust me, I have seen horrors from all around the world, the omniverse, and the beyond, and I am very, very appalled. So... that's all that I have to say. I will say stop bothering me, but nobody likes a Fate or a Goddess that turns her back on people, heh heh. Ahh, the wonders, and sometimes the pains, of having to do all this.

What happens when you cross anime powers and overpowered leaders with furries, all written by a bored Homestuck fan with too much time? Well, you get Rumei. A multiethnic, FT republic with both might and magic that let it conquer the entire Orion Arm.

A 7.6 (this is probably outdated but I can't do the calculations rn) (Tier 9, Level 6, Type 9) according to [this index](#).

Come to The Orion, we got [CULTURE](#) and [FURRIES](#)

Show Recommendation: Cobra Kai. It is very, very good.
IC Name: Roman Republic, or simply Rome (Rumei). Occasionally called the Ignisian Republic. Current year is 2697.

". . . You can't tell right now but I'm smirking through this veil. Such vulgar humor.

I won't comment on the relationship of a leader I'm at war with and a foreign leader. But I will chuckle immaturity.

The Director is much like the recent lords, for someone who has done so much for their people he has much skill in retaining a proper state of calmness and a good sense of humor.

Great guy, I'd love to learn some new jokes from him, as all of my jokes involve stabbing people followed by a witty comment of course.

Maybe one day I will achieve the state of mind. Probably not.

(Abdicating when you can no longer serve, or because that would mean your successor would like, reign only for a few years before joining you in the afterlife is a lot more common in monarchic history than you might think. So is the concept of giving your heir regency for the latter part of your reign, having your heir as co-king, and flat-out abdicating because of non-health reasons) /skip

The most revered Doctor Hatlen seems to have a raging pecker for anything related to the uncovering of nature's great mysteries, yet denies the affluence of nature's author. Does the aura of a man tell you everything, or is it simply the periphery of the soul? See, this is the metaphysical bullshit that I can go off on a tangent on, but it never really gets punctuated until you factor in the ultimate relevancy of a deity. The doctor clearly must try a brand of Abrahamism - perhaps Catholicism, perhaps Islam. Restriction is a great tool for the mind, since I myself don't dote on the same damn thing for over a decade."

His offering of assistance to the rebel forces has not gone unnoticed by the Artemis Government. If they do come to supposedly help the King's forces in their childish rebellion against their

betters, which is will in a well-deserved spanking.

I believe an aristocrat by the name of Victor Vonstein has gifted this fool a template to at least be taken seriously with the international community and it seems the clown has refused the chance to develop any respect with us. You will deeply regret refusing the rarity of Aquarian kindness...Especially from someone with a pay grade higher than yours or mine. Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.
