I'm listening to my entire music collection on shuffle. It's times like this where I'm not entirely glad that I have a wide range of music since it will often times go from something dark, like Silent Hill, straight into something happy, like Azumanga Daioh. It can get a little jarring at times.

Too much words. [This](#) is as much as yer really allowed unless the vocal makes up a major component of the tune, like in [this](#).

You're Gonna Go Far Kid, The Offspring

One of their not bad poppier ones actually, I got a new copy of Smash the other day, they got a lot softer later on.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
