Monkey 2285 went back in time to put a landmine where Monkey 2286 would die. After doing that, he died from '86's original death, but with a spike.

I went back and checked. Some goober misnumbered at that moment, so it technically went from 3142-3139 with 'wrong numbers' in between.

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.
