[Karnivool - Change](#)

The tribal drums and the massive electronic roars at the beginning are sheer power and the fast guitars, drums, and didgeridoo (of all instruments; then again, they are an Australian band) after that are absolutely exhilarating. Awesome track overall.

If nothing exists, where did this anger come from?

Interesting track. I don't know entirely yet if I can get into them or not, but very interesting track. Parts of the singing made me think of Agent Fresco.

Also, related to Luup, you might like [Arborea](#), if you haven't heard them already.

And if you like tribal music, I have a few things I could send you too.

Who is in control of those in control?

[Why does Ben Lee \(who I assume is the linoleum faced 'wipe-clean-look' profile in the bottom right-hand corner\) look like Rene Auberjonois? Why would Odo be hanging around a rubbish looking holo-world full of quidditch goals that vaguely resembles rejected Final Fantasy 13 concept art? And what happened in order for him to want to breath tornados? And how?!... It would take a vaster intellect than mine in order to answer those questions.](#)

I like it. Thanks!

I think I listened to something of theirs at one point, from you posting it, but it went right over my head and I completely forgot what the song was.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
