Autocratic Pagan Theocracy.

Pray for Ukraine and Moldova.  
Stalinist propaganda and other such ideologies should be banned.  
Remember the Massacres at Huế, Thanh Mỹ, Đức Dục, and the Shelling of Highway 1.

A unitary socialist republic headed by a president, with significant powers per their position in a similar degree to the President of the People's Republic of China. The subdivisions do not have their own authority, only what is delegated to them by the central government. While elections seem semi free at first, in truth they only decide the chief administrators of the subdivisions - the president is elected internally by inner party members.

A committee spearheaded by a Caller. Who divides the land in a pyramid by the various ranks of her army, with junior officers holding individual villages. The Caller is not obligated to answer her people, only her benefactors whose factions may rise to prominence in government but are eventually culled should she believe they're beginning to threaten her power.

An elite-restrained republic blessed with a lotta money from a very lucrative petroleum production and diamond mining industry but is cursed with a never-ending Islamic insurgency.

Agrarian communist dictatorship a la Democratic Kampuchea

Last edited by Upper Nan on Sat Apr 16, 2022 6:51 am, edited 1 time in total.

***The Dominion of Upper Nan: a technologically-advanced technocratic, national-syndicalist state where the people are mostly left to their own devices and given generous benefits so long as they obey the (numerous) laws and don't get any clever ideas about challenging the State's authority or bringing back democracy.***

Largely inspired by *Judge Dredd*, Plato's *Republic*, and the political philosophies of Juan Perón and (to a lesser extent) António de Oliveira Salazar.
