*People tend to assume that Entrance of the Gladiators by Julius Fučík is what that ever so famous circus clown theme is. And it is. Nobody would ever argue with you on this fact. However, if you want to be an unlikable, pedantic jerk, the song actually known as "circus music" would be a version composed for American woodwind bands (and later transcribed for fairground organs) titled Thunder and Blazes, published by Louis-Philippe Laurendeau. Of course, this information is of absolutely no consequence to anyone.*

**2289 A.D.**

In the early 21st century Siberia was struck by a massive asteroid that brought untold devastation and the collapse of almost every government. An alien virus, capable of mutating its victims, was brought to Earth as well. Eastern Europe, Siberia, China and countless other regions fell to the mutant horde. Europe became a medieval landscape ruled by feudal lords. The Middle East unified into a single Sultanate over time and entered a golden age wherein they have learned to co-exist with mutants. The Americas, which have lost contact with the old world, have turned into a Mad Max hellhole.
