Another game of Among Us begins, but this time Man is the impostor.

Controlled by the same player who controls [The Allied Tribe](#).

I'm not as active as I used to be (probably active once every 3-7 days) as I'm spending a lot more time on more important things. This has nothing to do with why I'm not as active, but I'm sad because a lot of ideas I thought of but never used in an F7 thread (e.g. the life simulator and make a multiverse) were used. Next time I think of something I should probably use it immediately instead of waiting a few months and having somebody else take it.

Man decides to utilize the psychological concept of displacement to his advantage and transfers his fear of marco polo games into a fear of silly spider costumes. This works flawlessly until the next Halloween masquerade party.
