Man Summons a eldritch being in our world to kill every human and then travels to another dimension and this dimension is populated by sentient frogs in the 1800s.

My beliefs. Dogs and cats are both equal, racism is bad, Joe Mama jokes are funny, and TRR is better than any other region.

Man gets arrested by FBI and spends the rest of his days in Jail, he try's to escape numerous times, but each time fails, eventually he's locked up in solitary confinement for the rest of his days, he eventually kills himself from the loneliness.

New Man.

New Man becomes a soldier in the Republic of Vailheu, fighting during the active civil war.

Just watching as my nation casually kills itself in a bloody civil war, yea, normal Monday here.
