Factbook claims to be "militaristic and nationalistic", but the wiki suggests otherwise, so I guess I'll say yes, I might live there. I feel guilty however for how the "neko girls" are being treated but the Independent Action Permit is probably nice.

Lescaaris, a progressive democratic-diarthic merchant republic in the near-future "post-post-apocalyptic" America, where society is rebuilt and new nation-states have been created while the United States government is nowhere to be found (I doubt the setting is really important and relevant though). Famous for European architecture, EDM, nightclubs, civil liberties, job opportunities, and trade fairs.

(To get a general theme-idea, Lescaarch culture is a combination of Dutch, Italian, Belgian, Monégasque, and French cultures.)

Hmm... Possibly. While it doesn't seem all that bad, and in fact the world seems to be in a better state than I would expect for the 2060s IRL, it isn't particularly appealing to me either.
