For the cult leader and members partaking in said ritual, a minimum sentence of 5 years and a maximum of 25 years in prison, with a maximum penalty of the chair or a firing squad.

The closest crime racism is related to would be a hate crime, which can result in a prison sentence for 3 to 7 years and other restrictions depending on the severity.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Buying and selling those stuff are banned, and if you somehow were able to import them and used them, 20 years in jail for drug trafficking, and 2 years for smoking. Plus there would be a 25,000€ fine.

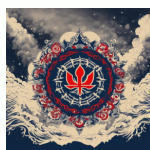

Selling illegal weapons?
