If you're using the loo for the number two it's fine.  
If you're intentionally "painting the town brown" however, have fun with house arrest.

Two months in a re-education camp and a job making anti-anti government memes upon graduation.

A power hungry homeowners association of a suburban development secede from YN.

My travels take me many places, from the scorching sands to the cold, dark vacuum of space. But I always return to my friends and family at The Pub.

Local county officials and social workers would sit down with them and work out a deal. If the activists still refuse, their bank accounts will be frozen and their house's electricity, water, sewer, heating/AC and all other utilities including the internet will be shut off until they kindly reconsider

AN hasn't provided any crime so I'll go with the AAN:  
Because Miliz violence is nearly unlimited, at least you're going to get some bruises from being beaten up by the officers baton as well as several weeks of community service for the disrespect. However, things get extremely worse if you're either doing this inside a "special protection zone" where they may actually kill you out of suspicion that the eggs are actually weapons, same applies to a person who is in the "kill list"

There is literally nothing you can possibly do to not be allowed to have a butter knife unless you're in prison. (In which case it'll be confiscated and you might go to solitary confinement for a while.)

Sending death threats to important government officials.

Professional woman (she/they). Anti-raiding. I do use NS stats (for the most part). I don't actually think an incredibly oppressive economy-focused dictatorship is a good government whatsoever, I just made my country one for fun.
