I recognize that this is referring to the Galicia region of Poland and Ukraine, but I think it's funnier to imagine that it's Spanish Galicia in a world where Galicia became a continent-spanning empire and now borders Ukraine. Goddamn ninjas.

***The Dominion of Upper Nan: a technologically-advanced technocratic, national-syndicalist state where the people are mostly left to their own devices and given generous benefits so long as they obey the (numerous) laws and don't get any clever ideas about challenging the State's authority or bringing back democracy.***

Largely inspired by *Judge Dredd*, Plato's *Republic*, and the political philosophies of Juan Perón and (to a lesser extent) António de Oliveira Salazar.
