[Ruler Adamant Will 074](#)

"Hmmm... An usurper. I find it somewhat amusing that humans so often bicker over religious beliefs, but when politics and power are involved, all of that is cast aside. I mildly admire the expertise and finesse that Ludovico had to exercise for his current position, but - as always - monarchs are monarchs, human social structures are naturally against monarchies and oligarchies, so I hope they eventually make the transition to a democratic government."

"A dumb, murderous brute, mad with power, who else could best describe this Schneide person? He has no virtue; there is simply no virtue to his actions, just mindless slaughter. The glorious Reich that is Germany will be the beacon of science compared to this rat. Ha! Let's see if he likes that."

"Let's see. Absolute monarch. Horrid economy. No civil rights, or democratic government. Collapsing peaceful nations, and getting rid of the most basic of checks on his power. I should hope for his swift demise, or if possible, to cause it."

Chairwoman of the Constitutional Council, Janice Griffith Cartwright.

Your local up and coming technological menace.

According to [viewtopic.php?f=23&t=363018](#) somewhere around 5-7, because civilian tech is hyper-advanced, military, not so much. About 4.8 if we include project Hercules, which created superhumans.

Janice Cartwright is a crypto-Capitalist and a faux-revolutionary. She has failed to create true socialism in her nation, and has instead reinforced Capitalist rule. There is no revolutionary spirit, only one of "technocracy", thinly veiled Fascism, and the "New Revolutionary Initiative", which one can only assume is a pathetic effort to create an anti-Socialist current in her nation.

A "moderate" is not a Socialist, it is a fraud.

"You're a strong leader with great ambitions, and under your leadership, you've achieved quite a lot of success. My concern, however, is your belief, along with how you define the term "reactionary," pretty much makes the wars against most, if not all states in the world, inevitable, which can lead to quite a lot of problems in the future. He runs the nation he seems fit and this seems to be the right way for his nation and his people. He runs the nation in an intelligent way and he is not a lackey of the western powers. Wilhelm's Status: At His
residence in Berlin

"This wicked witch is barely worth my time but I do have a few choice words regarding her: she and her people, as well as their pagan religion is disgusting, disgusting I tell you! From what I hear about those people living in communes over there they force their elders to jump from cliffs and down to their deaths! Not only that, those same people drink water tainted with the blood of menstruating women! And that's not the only worse part of it all: they offer nine human sacrifices to their false gods, and one of them is stuffed inside a dead bear alive! I can go on with the "culture" of Kjalaara but the list of their wickedness is endless. That so-called "Queen" Tove is the Jezebel of Kjalaara, and only throwing her out and down a window will ensure justice for her victims."

- His Imperial Majesty the German Emperor and King of Prussia, Wilhelm II, whose comment, though not entirely true about Kjalaara and is probably misinformed, sounds very similar to the plot of Ari Aster's 2019 horror film *Midsommar*
