Dark Tranquillity - "Void Of Tranquillity"

Melodic Death Metal from the Compilation "*Exposures - In Retrospect and Denial*" (2004)

Fuck, Anders Fridén sounds like he is possessed by demons or something. ☐

Disc 1: 6/10 (Started out really solid, but then let down by their early material. Despite this, it was still an interesting listen)

Disc 2: To be listened to in full tomorrow...

Xasthur - Doomed by Howling Winds ('05)

Holy shit this is amazing, way better than the version on A Darkened Winter. This version goes straight to the top 5 Xasthur songs.

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Primordial - *No Nation On This Earth*
Album: To The Nameless Dead (2007)
Genre: Folk Metal, Doom Metal, Black Metal

The passage at the end of this song is crushing, the way he sings it:

"These are wounds made by cold hands, that know the bite of steel
Hands that have rendered life extinct and punished the weak at heart
Tell me - what nation on this Earth is not born of Tragedy?
That has not felt such harsh weapons, wielded by Cruelty's desire?
Desire..."
