Billy Joel - Lullabye (Goodnight, My Angel)

From *River of Dreams* (1993)

*Goodnight, my angel
Now it's time to dream
And dream how wonderful your life will be
Someday your child may cry
And if you sing this lullabye
Then in your heart
There will always be a part of me*

*Someday we'll all be gone
But lullabies go on and on...
They never die
That's how you
And I
Will be*

Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
