Fair. I've had to push myself to adopt any sort of new format for my characters; breaking out of old habits in writing is hard as hell. If I could presume to give advice about "detailing adventures while preserving sense of self", if you consider how their personal life plays into the choices they make a little bit then that tends to help to get characters to branch out down paths you wouldn't expect.

That could work. Thanks. I'll try it.

That's the gory beauty of the Old West: You've got the encroached natives fighting for land they consider theirs (and raiding), you've got the White settlers and Manifest Destiny seeking a better future for themselves, and the Mexicanos/Tejanos defending their *Patria*. And they're all essentially the "Good Guy" fighting the good fight in their own POV.

It's really weird seeing a version of your nation that's rather melancholic (minus the cartoonishly villainous hilarity of Samantha Higgs, of course). Didn't know that one existed, actually! (though to be fair you run a LOT of puppets)

I think literally everyone on F7 mildly interested in telling a number of different stories has gone through a point where they go "oh, wow, two or three puppets is a lot of work to pull off, but I think it's still respectable! Oh, Val has puppets? I wonder how many?" and then just been blown tf away.
