**Downstrait- I CAME TO PLAY**

MT <Compatible with FanT if needed>: The Shattered Enclave [INACTIVE]  
FT: Aperture Industries

*"The Shattered Enclave is technically a failed nation, but through all odds, they have survived as a million-headed hydra, all ready to simultaneously attack each other as their enemies. Wildly different factions, each with cultures that simply could not have developed within a hundred years, kept in a temporum of chaos...one wonders if more unexplained powers were involved in the creation of this monstrosity..."*

**WE ARE THE COLOR RED IN A WORLD FULL OF BLACK AND WHITE.....**  
tldr: Not a country or a nation. More like an entire world divided into a trillion pieces. Near impossible to invade. FanT/FT origins, MT/PMT technology.

“

Hocico - *Final Resource*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Wooded Altar Beyond the Wander, Titan

this is rly good. ignore hardcore screamo titan, these guys are da best.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

ABBA- Man of the Midnight

Absolutely! When I first found out it was a Queen song a couple years ago I was pleasantly surprised that my favorite band wrote one of the songs that must've played on the radio when I was a baby or something cause the melody always stuck in my head. Guess that's why I like James Taylor and David Wilcox too.

Minutes ago: my failed attempt at playing "Spirit of The Radio"--Rush on my guitar.
