I must say that my father's interactions with the leadership of the above nation, and those of my grandfather before him, do seem to be recorded as less than amicable. But I wish to make inroads to the future of my nation and use the past to inform me, not to control me. My opinions of Anna is very shallow and near non-existent, I require further discussion with her before I can properly convey my opinions. What little I can say is that I do not acknowledge Anna as any sort of spiritual or moral authority as some have suggested when considering the myth that her predecessor was a sort of deity. I do hope that political ties can be established and sustained where my father failed.

"As with all such Valentinian leaders, I suspect her of conspiracy and subterfuge against Me- in her case, I feel even more vindicated, as she has been proven to manipulate the emotions of others within her own clique. To say I am absolutely disgusted by her would be a simple understatement- out of all the Valentinians, I believe she is the worst. Were it not for her pathetic fear of water, I believe she might have already brainwashed Me into her grotesque cult. Her position as the disgustingly cheerful spymaster- for that is what she surely must be- of the Valentinians is yet more reason for My continued denouncement of them- I am no expert on international law, always focused on more important domestic issues as I am, but I do believe that her methods of brainwashing are typically listed as criminal, and suggestive of conspiracy. To end, and to repeat, I have a special place in My heart for her- a place of hate, fear, and disgust, full of knowledge that she seeks My doom."

"This Johannes-Paul is clearly either a fool or else completely devoid of leadership qualities. Where others might have been able to unite a nation, it was his ascension which- seemingly, due to his... unpopularity- resulted in the rebellion of half the country. Though, now that I have considered his warranted disfavor, I do feel some sympathy for him. As a fellow outcast from My fellows, I cannot find it in Myself to insult you. Therefore- admittedly, midway through what was to be a denouncement- I somewhat wholeheartedly support you- that is, morally, not materially- in your wars against those rebels who seek to follow such popular trends as self-sovereignty and nationalism into that gloomy future of independence from a powerful country such as your own."

"Do so because one less noble is a service to the world. I amonce a Czech noble but the difference between the two of us is that I know my hand in class oppression and thus became a class traitor. Military service is all well and good but there are many royals like you who claimto be warrior-kings and they are lackluster in governance. What I see is spreading bread crumbs to the people to stave off a revolution."

The Avant-Gardist State of Patagonia ~~~ Gauchos and Mapuches, orgies and parties, avant-garde art, futurism, syndicalism, the New Man, general strikes, the glorification of violence, spiritual nationalism, esoteric occultism, CIA spooks, Spartanian homosexuality, public sodomy, and more

Triomphe du Surréalisme (1968)

- There are many things said about Patagonia but few actually know what goes on behind the Andes mountains. Tales of human depravation and man's inner darkest self run wild. A place where avant-garde culture flourish and the artist don't fear the censor. Where all live bold and free under the gaze of the Patron. Yet all dreams will come to an end soon...
- Not expecting an essay. Just a couple of sentences that shows that you know my work well enough

"Someone please get our weapons, it seems we have a Nazi sympathizer. Now while we will admit we supported a united Germany, we did not support a Nazi one. It seems your ideas are flawed just like your nation and people. We will sanction you until you rebuke your old outdated school of thought. Praise be to the dragon lords above us and the moon maidens who give us the royalty of Witiland our Werewolf strength!"

"I hold no favor for such humanistic tin-pot dictators such as sir Konrad. His Nation is not being led but held by the throat. he should be disposed of by the North-American States and the Spanish South American Union." - Protector

(EDITING FOR AN)

"Best to keep such Lycan's away from the rest of society, as their penchant for animalistic rage and destruction can not be permitted within (relatively) safe society. If they can control it I would still have them under heavily armed watch just in case, they pose a mortal threat to those around them. I do recognize that they are not to blame for this fact, They are innocent in it (mostly at least), however, that sympathy does not negate the threat they pose." - Protector Johannes-Paul of Antioch.

QUOTE

"Konrad is a sick, twisted, and all decadent man that deserves nothing short of execution and complete unyielding extermination of all his crazed followers. No, Xeno should be left to suffer under this witch-demon disguised in flesh. I shall act quickly to bring purification to the former throneworld of Zeffar. Fire and fury shall be the epic of the campaign."
-Emperor Charles Vanderbilt

"I see no worth upon this Xeno-King he is doomed to rebellion and his own trust in a faith, where no god will save him. It will meet its end by the blade in due time."
-Emperor Charles Vanderbilt
