So I'm just going to add more bands instead of removing them for now ☐

I feel like there's stuff I pondered adding but didn't because I wanted to clear things out, but I can't think of what they were...so going through Anthony Fantano Albums of the Year.

Black metal and punk rock has been fused together. ☐

Would you agree that's what the song Puiden Tuolla Puolen is? I have never before encountered such a thing.

What do you think of the combination?

Also, it needs a name. Black punk?

I would prefer the song is longer than 2:49, but that's a typical length for punk songs.

And noise rock songs, apparently.

4 songs on this 12 song album are under 2 minutes long, and 3 are between 2 and 3 minutes long.

Same deal with noise punk ☐

Going through Anthony Fantano's Albums of the Year video and choosing artists that sound the most interesting to me at the moment...and I just added two that are electronic, and electronic techno/dance/house music at that.

Currently listening to...nothing.

How I Live Now Soundtrack-Jon Hopkins-The Field

Huh, just randomly ran across the soundtrack for the movie who I used the appearance of the main girl in to use for an RP character that is now one of my favorite RP characters to play.

Kind of interested in the movie itself, but not majorly. The main girl is one of my favorite actress' (Usually meaning I have a crush on them, too). And while everyone else is like "EW GROSS!" about the fact she apparently falls in love with her cousin, for some reason that made me more interested in it...

I like unusual love stories more than traditional love stories.
