It is a landlocked country, dominated by the Dzungharian basin in the north, the Tarim basin in the south, and the Turpan depression in the east. It is split roughly between north and south by the Tian Shan mountains. It is bordered by China to the south and east, Mongolia to the northeast, Russia to the north, Kazakhstan to the northwest, Kyrgyzstan, Tajikistan and Afghanistan to the west, and Pakistan and India to the south.

Their king, King John, from the 18th century is believed to have been gay during his lifetime, or at least bisexual. There is proof of it written in his diaries and letters written by his wife at the time. Others believe that King Anthony II, his father, decriminalised homosexuality because of his son's sexuality.

The ethnic *Kroraiñe* are Eurasians, whose degree of Caucasian or Asian admixture varies by region; with the South being a bit more European and the North being a bit more Asian.

AN: They seem to rely on tourism -and eco-tourism in particular- to make ends meet.

I did learn that the sign 东 used in the flag of Eastasia 1984 means "east", and they use it in the flag because the east is the center of their world.

The people of the four sovereign Quarters of Geldria, united through the present Union, to wit: the *Quarter of Nijmegen*, the *Quarter of Zutphen*, the *Quarter of Roermond* and the *Quarter of Veluwe*, together constitute the GELDRIAN CONFEDERACY. (article 1 of the Confederal Constitution)

The Geldrian Confederacy -as the name implies- is made up of four independent states; one half more Germanic and the other half more Dutch, and al geographically divided by rivers.

The Cat Confederacy, a sovereign state that existed between 600 and 1905, was their continent's closest equivalent to what we accept as the Old Swiss Confederacy, but not really similar: Like Switzerland, It had a participative democracy, and a functioning, if crude, system of freedom of private property and freedom of association. Unlike Switzerland however, it was not direct, as a Representative government existed instead.
