Emperor - *The Majesty Of The Nightsky*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

[Stars of the Lid-Dungtitled \(In A Major\)](#)

Going to actually finish this album tomorrow. Very mellow, sleepy music. This is "ambient post-rock", which sounds weird but whatever. Love the feel of the sounds, though. I'm just grabbing random things now instead of going in the order I was going in, because I'm suddenly in a mellow music mood.

Used to play this when I was going to go to bed. The album, that is. Never actually thoroughly listened to it.

Nevermind, Labradford is the post-rock ambient one. This is Ambient, Classical, Minimalist, and Drone
