Midnight Resistance - Remote

My nation **DOES NOT** reflect my political views. The interplanetary-level Federation government is libertarian only for realism purposes, and functions more like a confederation. Since it has such a large territory to manage, the federal bureaucracy can only provide the bare essentials efficiently, while most other decisions are devolved down to the planetary governments.

Now you keep posting bands I don't recognize

[Daturah-Hybrisma](#)

Not sure they bring anything particularly unique to the post-rock genre, but pretty good atmospheric post-rock nonetheless.

Grotesque - *Angels Blood*

“ **CVT Temp wrote:**
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
