Ugh, I never understand when Spotify has some songs from an album but doesn't have others. It is frustrating. And it makes the least amount of sense when it is all the songs above 10 minutes long for some reason.

Considering that Spotify likes to make their system work worse, not better, it is probably related to that somehow.

Or the bands/record labels are weird.

Like I didn't realize this album has a 28 minute long song on it and another one has 3 songs over 10 minutes long....

[Liquid Tension Experiment-Three Minute Warning](#)

""Three Minute Warning" is a reference to the recording sessions where Levin wanted to improvise as opposed to Petrucci and Portnoy wanting to carefully write songs. Levin eventually told the others that if they didn't start to jam in three minutes, he'd just go home. The song "Three Minute Warning" is a recording of what followed. The recording was so unexpectedly fluent that the recording tape ran out after about 27 minutes into the jam, but luckily Portnoy's DAT recorder archived the ending as well. The back cover of the CD says: "CAUTION: "Three Minute Warning" is not for the musically faint-hearted, impatient, or critics of extreme self-indulgence. If you fall into any of the above categories, please hit the stop button on your CD player after track # 8.""
