All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Suddenly Seymour by Little Shop of Horrors.

This is pretty much my feels about my LSOH OTP, Seymour x Audrey in one 4 minute song.

love that album oh man

a vast filthy prison, melvins

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

nightcore - kiss of the vampire

Was curious since I've never heard of them before, so I checked them out on Youtube, now my ears are bleeding. I think I'd rather listen to my busted cpu fan

Nightcore isn't even a group; it's just this fad of taking existing songs and remixing them to make them faster and bubblier.
