Yes, I definitely would live in the  and would rather Valentine Z than any of their pupper nations.

My nation - which is pretty much just a unified Korea with some extra territory - represents my real views, as does pretty much anything I say on the forums. NS stats only broadly representative. Feel free to call me Q&K, Quartia, or any other nickname.

Why on Earth is the demographics such a horrible part of their nation?

"Every human is pansexual, mixed race, atheist and vegan."

Pansexual, a lot of people are that already, and it's not to the point where everyone is gay so humans go extinct

Mixed race, there's nothing wrong with race mixing, again it's increasing

Atheist, I am atheist

And vegan, I would love to be vegan but I don't have enough motivation.

As for your nation, it appears to be in an equivalent to West Africa and is mostly tropical rainforest, so I'll go with no as I've never been fond of the heat.

EDIT: I have been ninja'd. Still no for the same reason, the Yucatan is tropical rainforest.

It has a good economy with *govenrment monopolisation*. Even though there are other socialist countries in their universe, that is still surprising. I would go there just to see what was up.
