Sounds viable. Definitely a tourism destination. Slightly concerned about the compulsory organ harvesting though. My organs my choice what is done with them when I die.

Nonetheless I am a registered organ donor so living there would be feasible anyhow.

Maybe I'll set up my summer house there.

Partially inspired by the Third Odyssey mod for EU4, this nation is essentially a Byzantine successor state in South America that has fused together Ancient Greek Religion with Greek Orthodox Christianity. It mixes the aesthetic of Byzantium and Ancient Greece, with very open and liberal social values but with an Imperial Monarchy. NS stats are referenced but are not strictly followed to a T.

I mean, I go to school inside its modern borders - I think - so the transition as the US collapsed wouldn't be too bad for me, I guess. Some obvious hesitation there, but hey, at least it's not impoverished or anything.
