### Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

Caesar. Rome. Not sure what else to say about that.

AN: Their nation is always making progress in one way or another, currently with construction projects. Either that, or they're trying to recover from a devastating conflict or disaster.

A nation with a long and violent history, once divided, now united, but barely. Control of the country is contested by three main individuals- the Tsar, the President, and the Supreme Commander.

They don't have a primary banner, but the two that often come up seem to suggest a tropical paradise.

Hi, it's been a while. If you're seeing this then it means what I'm working on is not quite done yet. You can still read my old stuff but it's probably not canon anymore. I'll try to get something up soon. It may or may not involve wizards.
