Google Murray Bookchin. Murray Bookchin is one of the best anarchists to read on. Emma Goldman is another great one. Those are some suggestions from me to start on.

Any introduction to anarchism that doesn't include Malatesta is a useless introduction.

That being said, this isn't the thread to discuss this stuff. Yall should move to NSG or TGs.

They say one thing, do the other. They have other aspects that technically is not authoritarian such as government structure but other aspects that is totalizing and final word with no debate like social issues.

I'll definitely look in to them. My main concern with anarchism is what would anarchism have in place of DOTP (to prevent society from sliding back into previous state), and I'd love any suggestions for literature that addresses this question.

In a likely vain attempt to veer this thread now teetering right on the edge of NSG territory back on track, I'm going to ask a question to really anyone willing to listen. Formatting cliches. Forums, factbooks, TGs even, what are little bits and pieces that you've seen floating about perhaps a bit too much in the realm of NScode? I don't really have the time or energy anymore to go on another spiel so I'll leave the answers up to other folks for now.

don't particularly agree, wiki factbooks tend to just... hobble prose-writing that conveys information, imo. conveying any sort of emotion through a wiki format is pretty bloody difficult even if it's a good guide as to what you need to write about.

I tried to spice the narrative up with **Tohorin** but failed as I'm either too cryptic or F7ers have the attention span of goldfishes OR they act like Enlightened Atheist smartasses who are euphoric to point out supposed errors and don't seem to get that myth-history goes above and beyond logic and objectivity, by MT standards that is. Or maybe it's all of those combined.

Excepting typos and ret-cons I forgot to delete, the contradictions in Tohorin's history are intentional.
