Man gets mistaken for a specific Georgian man and gets mugged by Abkhaz nationalists, along with his friends. They were held for ransom.

A federal left-wing nationalist country situated in a fictional world in the extended Cold War timeline. Authoritarian by Western standards, Libertarian by Eastern standards. Atomic Tech - The year is 1978.

In process of retconning, especially regarding geography and demographics.

As a response to Man's incursion, [Abkhaz-Life] is moored at the port of Aq̄a, where the captain announces on a radio channel: "We are inevitable!". Preparations are made to fire the guns on parts of Aq̄a in case of a follow-up invasion.
