Fonik - Mayan Apocalypse

Daily dose of that (among others), and then log out.

Perfect way to prevent getting horrible songs stuck in your head.

A series of strange bipolar phenomena collectively known as adolescence, taking over a nation formerly terrorizing NSG as an awkward and slightly braindead child.

I listened to them before, discarded them because of the vocals, and forgot to ever give them a chance again. My dad said he liked their new album quite a lot, and put one of their songs on his playlist, so I'm listening to that song. I like it.

I heard they went to more post-metalish sound instead of sticking with sludge metal. So I didn't really listen to them other than the debut and the song called Finland. Just because ☐

This song is awesome, and it's 2 minutes long. 2 minute intro songs aren't usually very exciting.

Long solos are long, feels like 70% of that song was solos. And it was 13 and half minutes long.

Listening to the EP that fits into the album I just listened to.
