"What do we have there - an another communist? It seems that humanity (particularly the west) does never learn, huh? Anyways, let's see what we can find."

"His past in the communist makes him quite a shady person on its own. And "neutral" on most of religions? Who are you kidding - the communists would probably cut off the oxygen for religious the moment they could. Sure, we are secular as well and ready to purge the religious fundamentalism, but the methods of commies are too familiar for us as well. Him being a progressive also is not surprising - he would find a lot of supporting voices in the west, where students could be impressionable by his ideology. Overall, negative."

"George Fenwick is a weak man. Reading through his list of deeds, I see only debauchery, moral bankruptcy, and poor handling of a nation. Sloth, Greed, Lust, Gluttony, Pride-all the trappings of a ruler that cannot fit into his own britches. And his assessments of other leaders reek of the old social media rants of a certain 21st century politician, to put things gently."

While I tend to toe the line on traditionalism and other policies, his means of both applying pressure and also reducing the steam of underground communist movements is...not something you see often, and a policy I predict to be heavily effective. "The fact that the Paramount consists of multiple personalities, all of whom used to be the great leaders of Octavia, is both chilling and incredible. While I am wary of the advances of inorganic sentience (though, of course, I am not going to prevent scientific progress as a whole), I am intrigued by this concept. It must be very difficult to be made from multiple consciousnesses. However, the power of multiple leaders is concentrated into one being, which makes executive decision-making less...scattered. I imagine that, if any two personalities clash, strange things would occur within the Paramount."

"an individual who studied politics and very quickly thrust into warfare before she got the chance to complete it. however, warfare is a study of its own and she has certainly proven herself to be more than capable of leading on the field. it is also nice to see that her field leadership has transitioned rather well into her position as Krner. Her implementations of equality only strengthens my respect for her even more... And um... I admittedly find her rather cute... *clears throat* anyway, my overall view, positive."

Le Patron had a smoke in his office as he looked out at the window. Pure chaos. Bandits roaming the street, murdering people and pillaging stores in broad daylight, and horsemen jousting and stabbing people with their lances like shish kebabs. Then there's brain and blood splatter over his pristine window. Just like how he likes it in Patagonia.

"I could only sense cuckish moderation and a desperate need to be approved among like-minded "spiritually plebeian" peers. By the Demiurge, why do I have to give my opinion on incredibly unremarkable people with unremarkable political opinions of farcical nationalism and gay rights activism. Oh well, I could give him credit for allowing his people to own guns just so I could wreak some havoc there."

- There are many things said about Patagonia but few actually know what goes on behind the Andes mountains. Tales of human depravation and man's inner darkest self run wild. A place where avant-garde culture flourish and the artist don't fear the censor. Where all live bold and free under the gaze of the Patron. Yet all dreams will come to an end soon...
