fives Good song. Sigur Ros seem to always be able to be unique with any genre they do, which I like. They are my favorite band.

this album is so wonderful. It just fills up my head with noise and takes me away.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

I keep seeing people suggesting Earth. Hell, I think my dad suggested Earth. I should really check them out.

And I thought they weren't on Spotify, but I actually think they are. They just sort of got buried in all the things related to 'Earth' on there...

Leech-Inspiral.

I would suggest this song to you as well. It's a pretty good Post-Rock song.
