Monkey 41 was wondering what monkey 42 was looking at, and instead of giving 096 the time of day, spate him by not giving 096 the kill.

Monkey 40 went to space as an auxiliary scout of the Monkey Empire (the empire of Monkey 75 and Monkey 44), but was sucked into a black hole.

Monkey 37 was obliterated so hard by every nuke in the world literally piled on top of him in a pyramid that it is widely believed that every atom which composes him (or her) was disintegrated completely.

But then scientists picked up all the pieces of his or her atoms and put him or her back together. Then they made 1000000 antimatter bombs (which are 20x more powerful than Tsar Bomba, in fact) and did the same thing, but they put him in space because its too dangerous to blow him or her up on Earth.

There, they encased him or her in a great big ball of antimatter bombs. Then they detonated all 1000000 antimatter bombs at the same time and monkey 37 simply disappeared from the universe. Law of conservation be damned, monkey 37 literally does not exist anymore.

1 billion years later, all the pieces of monkey 37 randomly floated back together and he or she existed once again. But unfortunately, a black hole, a hypergiant white star (really big and hot stars), a WHITE hole, and a quasar all simultaneously collided with one another and created an explosion 10^{200} times bigger than the antimatter explosion that un-existed monkey 37. Needless to say, this is going to be a big mess to clean up.

Monkey 35 became the Regent of the Monkey Empire and continued the grand conquests. He reached the edges of the universe with his entire army and continued to engage in fierce battles with the Dark Elves.

Monkey 35 married. Had children. Continued to build the empire.

He saw how society was developing. People were living. Children were born.

In his old age, he gave a brief sigh, his empire would now fall into the hands of someone else.

In a close of his eyes, he died with happiness.

He was killed when he swung his sword and cut his own head off. Scientists are still confused on how that was possible.

Monkey 23 murdered monkey 25 before they could finish the monkey regeneration procedure. He took monkey 25 and bashed him in the head with the heaviest rock he could find. Monkey 25's head was bashed in and monkey 23 was caught by the other monkeys, who then murdered him for killing who could only be the Monkey Messiah.
