Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's because you mentioned a year incompatible with Olwe in that thread but still made it open to all techs and therefore are allowing Athan's magic.

wtf's Deathstep and why the fuck do people keep using "-step" as a suffix to everything now. Don't think most people even know what it means anymore.

Not hearing anything which constitutes dubstep or 2-step. Sounds more like a mix of heavy electro with drum & bass if you ask me.

Doesn't sound too bad though. I can bump to this.

That particular one was very heavy on the electro.

I prefer oldschool dubstep (see: 'real dubstep'), I've listened to it since 2005 or something (thanks to my dad), it's boring to produce

though, but sounds epic with a good soundsystem because of all the sub bass.

I like Grime(the instrumentals and the MC'ing), I've been convinced by my mate to start producing that now, he usually does trap.

Well anyway atm I'm listening to Kromestar - Kalawanji, give it a try

I think british dubstep like this is the best, but I like dubstep sub genres too
