Xi Jinping then sends a nuclear missile towards Man's city. However, a space mission in Man's nation notices what's going on.

Lavitiz: What's that?

Scott: I think that's a nuclear missile. *inputs focus target 1880 5394 3841*

Lavitiz: *fires a *p l a c e h o l d e r i u m* powered plasma gun at the missile*

The missile explodes 520 km above the planet's surface and 85800 km from the spaceship. Only slight damage is done to civilization.

New man decides that he's had enough of people wanting him to exist only in our world, and killing him whenever he is somewhere that's not in our universe.

Man's business very quickly goes down, of course, and he is left bankrupt with no house, car, or job. At least he has shoes. Lots and lots of shoes.
