Cliche: Not enough hot leaders

**The Avant-Gardist State of Patagonia** ~~~ *Gauchos and Mapuches, orgies and parties, avant-garde art, futurism, syndicalism, the New Man, general strikes, the glorification of violence, spiritual nationalism, esoteric occultism, CIA spooks, Spartanian homosexuality, public sodomy, and more*

### Triomphe du Surréalisme (1968)

- There are many things said about Patagonia but few actually know what goes on behind the Andes mountains. Tales of human depravation and man's inner darkest self run wild. A place where avant-garde culture flourish and the artist don't fear the censor. Where all live bold and free under the gaze of the Patron. Yet all dreams will come to an end soon...
- Not expecting an essay. Just a couple of sentences that shows that you know my work well enough

See, while it's not strictly an autocracy, I have a puppet nation that's a dictatorship that I created specifically to not be one of those 'haha look at how edgy and evil we are, we oppress literally everyone so much and focus our

entire economy on oppressing our people' types of dictatorships.

Namely, that nation does one of the things that many real-life dictatorships have done: it denies and pretends that it *isn't* a dictatorships. After all, the legislature has multiple parties in it and there are regularly scheduled elections to said legislature, so how can it be a dictatorship?

Just ignore the fact that one political party has over 90% of all the seats in the legislature and its status as the ruling party is constitutionally enshrined, the other political parties are required to be subservient to the ruling party and are effectively controlled by it, and only one candidate (who is approved by the ruling party) runs in each constituency.

But other than that, very much a democratic nation and not a dictatorship whatsoever.

Russian alt-hist novel covers (yes, covers, and I already imagine what the novels are actually like) are unironically some of the most schizo shit I've ever seen. I mean, you have shit like Wilhelm the IInd wielding a PPSH, Joseph Stalin inside the cabin of a spaceship with UFOs in the background, whatever the fuck all of these are... truly a magical world to get sunk into, isn't it?

Yeah, the Isekai video was a real rabbit hole.

My latest puppet idea is for a 40-something year old female Ayatollah of syncretic Zen-Shiism from the 29th Century going back in time and starting a holy war with a run-down spaceship and a fleet of Toyotas on NASA crawler motherships against a victorious German Reich and the UK/USA to deprive them of oil and destroy Western society...so I really wanna channel that insanity.

Do you mean like a third world country irl whose nation state equivalent is first world, or a nation states nation that is third world in its lore then instantly turns first world?

An African island kingdom with Asian influence, finding itself as a new arrival in the developed world
