After the great rain of Cats and Dogs. The great rain of Burritos begins.

Millions of burritos rain from the sky all over the world. World hunger is over. There are many burrito types raining as well. Vegan burritos, Asian burritos, Mexican burritos, American-style burritos, etc, etc.

The burrito rain actually stops after 2 and a half months, but still islands made purely out of burritos ended up forming.

Fish start to eat burrito islands, slightly decreasing there size.

But another 3 day long rain for burritos comes across the entire world.
