Either way, her despotism gonna be her downfall pretty damn soon. And trust me, it is NOT gonna be pleasant for her. Now, where the heck was my bottle of scotch? Oh, right! You're a type to always rebel, and I like that.

Though I have seen a man pay for a bar's drinks and promise riches just to kill all off as soon as he got what he wanted.

That's tactics, I feel like you need more tactics and strategy in your rule, I feel you fly wild and free of care, It concerns me.

But for all I know it could just be an act, you could have countermeasures for those that attack thinking you are nothing but a mindless brute. Every time I interact with you I always want to duel you by the end of it. But not because I hate you, but more because I see you as a warrior, and I wish to test that."-The first king

"Richter's struggle against fascism and terrorism is admirable, but it is clear he is not cut out for politics. His governance is based on vague ideals, and some of those are even contradictory. For example, how can one be in favor of both capitalism and communism? Communism is the absence of capitalism; the two cannot exist together within the same system. He is an idealist, even a leader, but he is not cut out for *national* leadership. The vagueries of his rule will only foster further division, and the descendants of his line will grow to be out of touch and snobbish, as all monarchies do. This system is not built to last, and I urge him to abandon it at once."

We do not use NS Stats, policies, or otherwise. Please only judge us by what is in our factbooks.

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of

income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

- Emiranda Logoreci, President of the Crowned Republic of Kabzeel (former)

Kabzeel, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "Royal Socialism", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.
