Probably not, though maybe I might have a better idea if there was a single word written about it. As it is right now I have nothing to go off other than the PM being a "national conservative" -- I.E., I'm not welcome.

Most likely not.

Even if set in what appears to be a fair world even after oil-collapse with green energy and interstellar colonisation, I do not trust any state hailing back to the Confederacy, especially a Nationalist one. Nothing personal.

Maybe. I'm not a big fan of African nations, but the fact that they're currently industrializing means that they'll need some engineers, and will pay them well..
