Most flags of their seven republics contain the Dark Sun Order symbol. Also, how can be an empire be composed by republics??

Copy and paste this in your signature if you know there are only 2 genders and didn't fail biology, and you understand that sex and gender are the same.

Their "Gulag Gun" isn't a traditional cannon but some kind of energy-based Brown Note-type weapon that conspiracy theorists would adore.

They seem like a nation that despite having twice the population of the US sits on a island which I assume to be hundreds of time smaller than it further limited by mountains removing even more space but having enough room for atleast 2020 standards of transportation and energy.

They declared independence from a number over nation's disputing the archipelago. They also have found a way to discover the multiverse apparently.

The Interstellar Concordium

A Democratic Alliance located in the Beta Quadrant, bordering United Federation of Planets, Klingon Empire and Romulan Republic. Part of the Alpha Quadrant Alliance and one of the most powerful factions in the galaxy. Think of it as the Federation, but capitalist, uber militaristic, and without any regulations such as the Prime Directive, bans on genetic augmentation and cloaking devices.

Despite their name and flag, they are not Bastards from Greece but are rather Moldavian. Also, Transnistria still exists in this timeline *somehow*.

On that note, despite being a Ex-Soviet nation, they somehow kept their monarchy alive long enough for them to be restored into a, ceremonious, power after the collapse of the massive nation.

One of their last havens of liberty is located in the Middle East and portions of the Alaskan north. Interestingly enough the exiled government relies on cod fishing and bribery to sustain their economy. You know the world's gone to hell when the last place to find freedom is in the Middle East and Alaska.

Much like the Teutonic Order in Medieval Europe, they're a military order that just so happens to own land.
