The Federal Reclamation Initiative of the United States of America

It's 2035, 62 years have passed since the world became a nuclear wasteland. The world became ruined through the efforts of Southern rebels in the United States. Who, after losing the 1972 Presidential Election to Senator Kennedy capture nuclear weapons and activate them. The hours after this see a nuclear exchange between the Soviets and the US over miscommunication. Luckily most of the Federal Government had managed to retreat to bunkers across the country. Decades later they have now returned to give America a second chance.

This country has a very controversial government that most civilians don't like. Either that, or people in this country are very close and they form a pretty tight-knit community.

Bootleg Sweden. Or something like that. Idk.

I like cars. Cars are cool. I still believe that public transit > cars though.
Ok that's about it. I have nothing else that is interesting.
