To be quite honest, I don't know. I can assume from the fact most are vents on the frustrating hellscape that is NS Stats, I suppose it means they use them? I really havent been able to get much a read on their nation though, so I suppose just that.

Apparently the Rulzeans live in Burrows, or if you are a yeehaw, Rabbit Holes.

Atheara is a PMT set in the 2050s whom has achieved Unity and Peace in Fennoscandia for 20 Years. But the people seem to want more. Going through a Cultural Revolution, it will change what it means to be Athearan... World Leader in Aviation and Major eSports Culture. Stuck in 2050, as Time passes but does not Continue. In the Athearan flag, the White represents the cleanness of the Sky, while the Blue represents the once-pristine Oceans that surround Atheara. The Nordic Cross, for it's part means the balance of between the Sky and the Sea.

One time, during an event forever known to Waisnor as *Black Sunday*, there was a 'Union of Saviors of the Nation' (or something along those lines) that believed the president was in cahoots with the freemasons and Illuminati to establish a masonic-illuminati conspiracy, maybe something along those lines, eventually its leaders got arrested and sent to prison at the cost of 174 civilian lives killed, and countless properties vandalized or completely destroyed.

They began as Woodleigh , a permanent mining settlement founded in April of 1786, mostly as the consequence of an attempt of indirect rule failing as the native Mahēalani Polynesians were rightfully wary of British intentions in their homeland...not that this stopped the colonists from expanding.

The Carriibbean Confederation's roots lie in the purchase of Cuba from Spain in an alternate 1850's and the admission of the newly acquired territory into the Union as a slave state. Naturally, as a slave state it would fight alongside the Confederacy in the American Civil War (which in this timeline lasts a whopping 17 years), however following Confederate victory in the conflict Cuba would secede to form its own independent nation in turn.

In spite of their imperial authoritarian exterior, the Vaderland actually maintains some semblance of democratic measures. Like the German Empire of old, it's a semi-constitutional monarchy with a multi-party democracy where the Kaiserin retains power and legislation has to be approved by the Reichstag. They also came to be as a product of the "Imperial Reformation" where small Germanic kingdoms banded together to resist Gallia. This time, the one calling the big shot is "Osterland" which sounds like Austria or something.

The Avant-Gardist State of Patagonia ~~~ Gauchos and Mapuches, orgies and parties, avant-garde art, futurism, syndicalism, the New Man, general strikes, the glorification of violence, spiritual nationalism, esoteric occultism, CIA spooks, Spartanian homosexuality, public sodomy, and more

Authority in Surrealist Patagonia is fairly horizontal, as local level communities and worker's syndicates are the building block of the nation. Their citizens have the right to protest and are also required to own guns to defend themselves and the Revolution...and it's necessary, as violent Purge-like ruckuses happen every week as protests are encouraged to turn deadly

In their version of WWII, nazi germany and britain signed an uneasy armistice that ended the war in europe, allowing the US to use all it's power in the pacific theatre, thus turning the tide against the Japanese Empire earlier than IRL. However, the US invasion of the Japanese home islands was stalled due to a fanatically loyal army and (overally) population, leading the US to pursue an honourable withdrawal, that left the empire alive but badly crippled.

The United Communal Burrow Republic is populated primarily by the Rulzeans, a lapine race as one might be able to guess from the name of their government. Its governmental principles and political culture are built on what one might describe as mutualist principles, with the sharing and pooling of resources between the various autonomous burrows that constitute the UCBR being understood as a necessity, not least of all because this political philosophy emerged in the aftermath of a practical apocalypse in the nation's not too distant past.
