Definitely. It seems quite nice in terms of living conditions, and working on aerospace projects to explore their star system would be really cool.

Due to the levels of corruption and high tax rate, most likely not. However I am interested to know if sortition is a canon policy as it is in my nation, and its rare see fellow demarchists.

Unless it has an elaborate cult of personality revolving around a supreme ruler that entirely embodies an Aniki-like archetype, and the kind of socialism that is not explicitly Marxist and more patriotic, then no.

No, I have no interest in living in a Russian autocratic nation.

"We might not always be the main character in the wonderful play known as Earth, but we can always be the protagonists of our own lives. And that, for me, is more than fulfilling."

No because of the human sacrifice and ID chips.

The **North Sea Realm**, colloquially known as **Northaria**, established 1421 A.D. A British-Nordic nation with strong democratic traditions and an elective monarchy.

We use NS stats, with the exception of tax rates and the related stats. The Northarian population is an estimated 75.7 million.

Member and leader of the **Oceanic Treaty Association** and the **Arctic Council**, current president of the **Western European Union**.

I reject anything and everything political that I posted on here prior to 2019. She/her, please.
