I had one.

Now I don't even HAVE it and it's eating it all up.

I think I'm about to bail on Firefox.

Muse-Madness

Don't feel like listening to anything useful apparently.

This is one of the few albums that have actually gotten WORSE the more I listen to it.

Albums titled as alternative rock and blues rock, but this song is pretty hip-hop.

While they're waiting on their heaven they're creating a hell~

And they rape the Constitution while you wait in your cell~

Fuck the New York Times. Fuck CNN. And politicians that pretend to be the working mans friend~

The emperor is a liar who fuels their own fire~

Americans, they live in 50 states of denial~

Alternative rock is thrown around so loosely now it means virtually nothing in modern context.

Well, overall I feel like the term fits.

Sure, it is thrown around loosely, but as far as I'm concerned, it doesn't really matter.

Aaand that above song seems to be anti-war, too.
