A technocratic shadow government with pmt-ft capability

"Violence, naked force, has settled more issues in history than has any other factor."  
"We have buried the putrid corpse of liberty"  
"We have the duty, not the right, to defend our territories if the state is absent"  
"The truth is that men are tired of liberty."  
Fascism is the modern states national and natural immune response to unchained capitalism and subversive Marxist ideology.

San Montalbano doesn't seem to have a primary banner. First thing I got was a Japanese Castle, followed by a stone hallway. Perhaps they like architecture.

*I have 3 different banners with the same overlay. I recently redesigned them to be more desktop-friendly.*

A confederation, made up of several great Aristocratic Houses who rule over their own fiefdoms, while also exercising a democratic vote among themselves in order to appoint a King/Emperor/Khan as Head Of State over the country, though only as a mere figurehead, having little to none executive or legislative power.

"All men are NOT created equal! Some are born smarter, or more beautiful, or with parents of greater status. Some, by contrast, are born of weak body or mind, or with few, if any, talents. All men are different! Yes, the very existence of man is discriminatory. That's why there is war, violence and unrest." – Charles Von Peacecraft

They're very developed and futuristic, with massive and dense cities. It also looks a bit like a desert, so they probably don't have a whole lot of environmental protections.

There are certain places where you can go up hundreds of stories to gaze down at the urban landscape with great lighting and probably not cancer-inducing industrial smoke.

Hi, it's been a while. If you're seeing this then it means what I'm working on is not quite done yet. You can still read my old stuff but it's probably not canon anymore. I'll try to get something up soon. It may or may not involve wizards.
