The Catalan Space Force, detecting a massive armada of space vessels heading to Earth, with intelligence that they are heading to stop Catalonia;

the Catalan Space Force launches hit-run and strafing attacks against the armada. But they utilize light space vessels to attack the armada's bunched-up units.

However, this proves ineffective in the long-term as the amount of ships the Catalans take out is not enough because reinforcements continuously arrive for the Martian-Catgirl armada that is led by President Chimichanga of the former Burrito Republic.

Carolingian forces would begin a retreat into the forests of Poland, and Germany, with the northern armies going to the modern German-Danish border to hold a defence, with the southern armies going into Czechoslovakia to hold the mountainous areas.

They do that without realizing that the Polish and Czech land is held by their bitter enemy the Polecat-Lithuanian Union. The Carolingian armies are massacred, and Catalonia and Polecat partition Carolingia. Meanwhile, the Paraguayans and Laotians secretly invade the Capuchin Polity. Luckily for the Capuchins, the Squirrel-Gerbil Confederacy, their closest ally, use their army and unneeded space force to defend the capuchins and themselves.

The Warring State of Inner Mongolia conquers the Warring States of Liangguang and Heibei, and is renamed the Oriental Kingdom of Inner Mongolia.

Meanwhile, a new virus called the IRL Virus starts infecting people in Bobland. The symptoms are personality changes, hyperness, and insatiable cravings for sausages. As if in response to this, a Slimer (Republic of Slime) sausage brand called Delicart becomes international.

The Lunar Republic gives Phobos and Deimos to whoever controls Mars. The president declares himself king and invites all so they can see a surprise.

### Ministry of Universal Affairs

By royal decree, the king of the Lunar Republic humbly invites all foreign leaders, with the exception of the Republic of Ashotu, to the Royal Fair, where all nations may present their inventions, with the goal to spread ideas across the universe, peacefully and with joy. Those who wish to attend are required to bring at least two devices to show to the fair. Press are allowed, and please don't disturb the peace. Treat all other organisms fairly, and most importantly, do not come if you were restricted.

With the loss of their German land, Carolingia would proclaim the Nordic Empire with all their remaining lands, in the hope that they'd see the Carolingians not as oppressors of their lands.

The African Emirates wrote:

The Capuchins respond swiftly to the Catalan conflict, with the head Capuchin (designated Capuchin-Alpha) making an [impassioned speech](#) on systemwide broadcast which was also sent by messenger ship to CCA colonies in the Trappist, Gliese, and Alpha Centauri systems.

Arriving just in time to help the pan-Martian navy, the truly massive Capuchin First Fleet descends on the near-Earth space battleground. Together, the CCA and their allies push the Catalonians out of orbit, gaining complete orbital supremacy of the planet. Now, the next phase of the war begins.

The skies over Catalonia darken as orbital bombers drop millions of conventional bombs on Catalan military sites, taking care not to hit civilian targets. With the help of massive advancements in cyber warfare since the Polity expanded beyond Sol, Catalan digital was severely crippled, hampering Catalan ability to stand up against the alliance of nations that had formed against it.

Meanwhile, in orbit of Mars, a joint Capuchin-Catgirl strike fleet surrounds the captured lunar moons, advising them to lay down their arms and offering them integration into their various extrasolar colonies.

Capuchin-Alpha is a bit insulted by Glyde McGoo's strange new law in the Stirre Republic, given that his name has two Hs. He kindly requests that the law be repealed, offering many bananas in return.

M'yn'ah, now the Supreme Commander of the Catgirl troops heading to Earth, begins preparing the landing ships and Strato Fighter military aircraft to begin landing on Earth for the final step in stopping the diabolical mission of Catalonia.

Lord Veemaa Abelló II of Catalonia launches a direct invasion into Sweden and Finland utilizing overwhelming numbers of super soldiers and exoskeleton mechanized infantry; thus forcing the Nordic Empire to continue fighting in Lapland and the deep woodlands of Sweden. Meanwhile, Catalan agents continue to spur up protests and revolts across non-allied nations in the world in order to fulfill the "World Without Borders" goal of Veemaa.

The CCA and Martian fleets begin entering Earth's atmosphere, coming into contact with Catalan, Laotian, and Paraguayan intercept spacecraft and stratosphere aircraft.

President Chimichanga of the former Burrito Republic says. "Everybody

gangster till the music starts speaking Latin." And as the fighting in Earth's atmosphere rages on, Chimichanga utilizes massive speakers on one of the Catgirl flagships and plays loud Latin [music](#) from a video game with planes.

Remnants of the Dos Empire are picked up by the CCA ally Hawaii on the Hawaiian Central Fleet that utilized the Panama Canal to arrive into the Atlantic. The Penguin Empire, furious at the genocidal activities of the Catalans, joins the war effort alongside the Catgirl-Capuchin Alliance. The fighting intensifies as the Catalan Greenland Fleet confronts a joint Penguin-Hawaiian fleet. Supercarriers from both fleets clash utilizing hundreds upon hundreds of aircraft to try and gain the aerial advantage. Large railguns from Nuuk in Greenland fire on the Penguin-Hawaiian fleet, damaging more than 40 warships and taking out three submarines.

The CCA finally manages to gain an air bridge and starts dropping supplies for the resistance groups in Europe. Lord Veemaa Abelló finally realizes the war might not go in his favor, and so he has agents of his remove the current leader of Bavaria from power and reluctantly places Hitler in charge of Bavaria. He tells Hitler that he has the ability to run the fiscal policies of Catalan-occupied Germany, but he doesn't have political authority over it, he has full political authority over Bavaria however. Veemaa also forcefully subjects Hitler's Bavaria, Hungary, and Austria into joining the war allied with Veemaa. This gives the Catalans some additional manpower to launch incursions and attacks elsewhere. This allows for a swift invasion Balkan state of Illrida and forces it into a military alliance with Catalonia and the other members of the Asuncion Pact.

Two hundred troops of the Nal'xiso faction of Mars and twenty Capuchin troops successfully utilize a landing ship to land in Svalbard. Making them the first non-planetary forces to arrive directly on the ground for the war effort. They managed to evade the Catalan defensive positions all across the Atlantic by landing far north which was out of range of Catalan AAA guns.

Utilizing incursion tactics, Svalbard is taken over by the Nal'xiso-Capuchin troops, making it the first successful counter-offensive against the Catalans.

Supreme Commander Myri'ah calls for the Hawaiians to continue fighting Paraguay to give the CCA more time to safely execute landing operations to defeat Catalonia.

The war continues. Chaos continues to ensue. Will Catalonia be stopped?

Keep a watch out for the next episode of *No Rules RP*.
