Actually the plane is sentient and can fly itself, sooooo...

A Cessna has an engine failure and hits the 747's engine. The 747, panicking
like everycar and the pillow, is prompted to make an emergency landing in
Kuala Lumpur, Malaysia.

Unknown island turns out to be inhabited by feathered apes lead by a time-travelling rifleman.

Colossal modern island nation in the North Atlantic. Ruled by a compassionate yet slightly-unhinged king, with a very isolationist yet empathetic populace. Notable characteristics: terrifyingly mighty air force and navy, world famous cars, legendary blend of wildlife.

Flag created by the legendary Almonaster Nuevo.

NS stats are canon except for population; factbook started. Some things are my RL views, some things are not. If curious, feel free to telegram.
