Coming from you, it is **very** ironic. If you still have any complaints, for the love of god go to TGs, because no one likes a thread being stunk up by drama.

It's the view they have as seen from the ship? Or maybe a picture of the view of the rear of their ship made by a drone.

It reminds me of the NK “children’s” cartoon, Squirrel and Hedgehog. I believe it was called.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.
